This most popular of all early spring flowers, that almost entirely disappeared from American gardens during the war, is back again in all its glory. We offer a fine mixture only of Purple, Yellow, White and Striped varieties. HARDY DAFFODILS

There are many misunderstandings as to the definition of a "Daffodil" or a "Narcissus." The two names, however, refer to the same race of plants although the names may apply to different groups in various parts of the country. Regardless of which name you prefer, they are the first of the large flowering spring bulbs. They are easily cared for and will grow and bloom year after year unmolested.

INSURPASSABLE. A huge "Trumpet" variety from Holland that is still new to American gardens and is very scarce. The flowers are a little larger than Golden Harvest and are held erect on stiff stems. Exceptionally good for cutting. 3 for 75c; 12 for \$2.80; 100 for \$19.60, postpaid.

TRUE JONQUIL. This is the true old-fashioned Jonquil. The pure golden yellow flowers are Miniature Daffodils produced in clusters of 2 to 4 flowers on a stem. They are unusually sweet scented and especially suited to shady locations and in the rock garden. 3 for 30c; 12 for \$1.00; 100 for \$7.00, postpaid.

KEEP MOLES AWAY FROM YOUR BULB BEDS

Many gardeners are unable to raise Tulips because of trouble with moles. While these pests delight in working through a Tulip bed, they never bother the Daffodils. The results of our experiments with bulb beds has convinced us that the best way to get rid of the moles is to plant Narcissus or Daffodils all through the Tulip bed. They bloom early and are gone before Tulips are ready.

THE WORLD'S FINEST TULIPS

Each year we make test plantings of several thousand Tulips, including the new varieties sent to us by our associates in Holland. This enables us to select for you the very finest assortment of Tulips available. Even if you are not acquainted with the varieties listed we know you will be well pleased with any of them you may select.

Each of the following varieties is outstanding in its pattern, color, and top-sized bulbs and guaranteed to be true to name.

By sending out smaller bulbs and making a few substitutions, we could lower our present prices but the repeat orders and many fine letters from our customers prove to us that you want only the best, so that is exactly what we are offering you.

The following letter was received in July, 1947: "In ordering these bulbs, I would like to tell you how very beautiful the Tulips were from the one hundred I received from you last year. I never saw such blooms and size. The whole neighborhood came to see them." MRS. H. P. Ertel, Ohio.
